

About Us

Community 247 focuses on the unique needs of women and their children in the Baltimore Metropolitan area. Through generous donations and partnerships, we offer an array of resources and support to help women and their children overcome all forms of hardship and forge a new path to sufficiency.

Our vision is to provide comprehensive resources and support to women and their children while promoting a culture of compassion, respect, and dignity. We believe that each person's story holds the power to transform lives and strengthen communities. Our workshop series, Mama Bear's Zen and Gen Win Youth Activities, fosters community by connecting women and children residing at local shelters to community leaders, authors, advocates and organizations. The organization also provides housewarming baskets to women to help offset expenses.
